Nothing can be more has inating, and one can other no greater treat to a friend four of the picturesque and the beautiful. Anthony's Instantaneous Stereoscope Views are the latest Phe'ographic wonder. They are taken in the fortieth part of a second, and everything no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been periestly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of his and motion. The process is a discovery of our own, and being unknown in Europe, e we receive from Loadin and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscope Illustrations of the Scene of the Futron Struct Prayers Meximings, in which many hearts feel an interest. The particulars of this will be for-
